Promotional: Nursing Home Alzheimer's Disease and Related Disorders 1 Hour Curriculum

****You MUST print this for Continuing Education purposes and keep with your certificate of completion.**

Requirements:

For successful completion of this educational activity and receipt of 1.0 contact hour(s), the learner must:

1. Participate in 60 minutes of continuous learning.
2. Complete a quiz with a minimum score of 85%.
3. Complete an evaluation form.

Educational activity description:

Having a basic understanding of dementia is valuable for all staff and volunteers working in nursing homes who may have any contact with residents. This educational activity provides basic information about Alzheimer's Disease and Related Disorders (ADRD).

Target audience:

The target audience for this educational activity is nurses in the long-term care setting and other interested staff. This is an intermediate level educational activity. Information is geared to practitioners with a general working knowledge of current practice trends and literature related to the subject matter. The focus is on increasing understanding and competent application of the subject matter.

Purpose:

The purpose of this educational activity is to enable the learner to identify common issues associated with care of the resident experiencing dementia.

Learning outcome:

At the completion of this educational activity, the learner will be able to demonstrate knowledge about providing resident-centered care for the individual with Alzheimer's disease and related disorders (ADRD) by passing a quiz with 85% or greater accuracy.

Learning objectives:

At the completion of this educational activity, the learner will be able to:

1. Define three (3) terms associated with dementia.
2. State two (2) causes and diagnosis of Alzheimer's Disease/Related Disorders (ADRD).
3. Identify three (3) characteristics associated with ADRD.
4. Select two (2) communication strategies for use with residents experiencing AD/ADRD

Author:

Linda Shubert, MSN, RN, NPD-BC, CDP[®]

Linda is an approved FL DOEA trainer (#6095) for Nursing Home Alzheimer's Disease Curriculum. She has over 15 years of experience working with residents experiencing dementia. Linda has worked with geriatric patients across the continuum of eldercare as a rehab nurse, geriatric nurse case manager, Director of Nursing, consultant, instructor, and clinical professor. As the Director of Education at a 180-bed long-term care facility, she developed, implemented, and evaluated competency-based staff education to comply with regulatory training mandates. She enjoys developing creative learning that engages the learners and motivates them to be competent and resident-centered caregivers.

Planning committee:

Judy Hoff, RN, BSN, MA, PhD

Linda Shubert, MSN, RN, NPD-BC, CDP®

Jessica Burkybile, MSN, RN, NPD-BC

Promotional: ALF: Alzheimer's Dementia: Creating Routines

You **MUST print this for Continuing Education purposes and keep with your certificate of completion.

Requirements:

For successful completion of this educational activity and receipt of 1.0 contact hour(s), the learner must:

1. Participate in 60 minutes of continuous learning.
2. Complete a quiz with a minimum score of 85%.
3. Complete an evaluation form.

Educational activity description:

Creating a person-centered environment can help reduce challenging behaviors often seen in the LTC setting. This educational activity explores caregiver communication, care guidelines, and response to challenging behaviors that promote a therapeutic environment for individuals with dementia.

Target audience:

The target audience for this educational activity is nurses, social workers, and activity professionals in the long-term care setting and other interested nurses. This is an intermediate level educational activity. Information is geared to practitioners with a general working knowledge of current practice trends and literature related to the subject matter. The focus is on increasing understanding and competent application of the subject matter

Purpose:

The purpose of this educational activity is to enable the learner to identify person-centered interventions to support persons with Alzheimer's dementia.

Learning outcome:

At the completion of this educational activity, the learner will demonstrate knowledge about caring for person's with Alzheimer's disease by passing a quiz with a score of 85% or greater accuracy.

Learning objectives:

At the completion of this educational activity, the learner will be able to:

1. Identify two (2) changes in the brain that are seen in Alzheimer's disease.
2. List four (4) ways to assist an individual with Alzheimer's disease with activities of daily living.
3. Identify three (3) techniques that facilitate communication with an individual who has Alzheimer's disease.

Author:

Deanna Hodges, OTR/L, ATP, Dementia Care Specialist

Deanna has been practicing occupational therapy for over 35 years. She currently works in acute care at Mayo Hospital in Jacksonville, Florida. Prior to acute care, she worked for over 25 years in long term care and short-term rehabilitation. She currently is a Dementia Care Specialist. She is an instructor and practitioner in the utilization of the assessment of cognitive skill levels and in the provision of treatment techniques to enable the patients and residents to perform at their best ability to function in activities of daily living.

Reviewer:

Lois Platt, MSN, RN

Ms. Platt has had extensive experience in a variety of health care settings, including as Staff Development Coordinator in a Long-Term Care facility in Arizona. She also worked as a Term Assistant Professor of Nursing for the University of Alaska Anchorage AAS Nursing Program for many years as well as coordinating and teaching the Certified Nursing Assistant Program in Valdez, Alaska. Prior to entering nursing education, Ms. Platt worked in both staff nurse and Clinical Resource Manager positions in a small Critical Access Hospital in rural Alaska. Her work experience also includes staff and charge nurse positions in an Intensive Care Unit in Connecticut. Ms. Platt obtained a Diploma in nursing from Joseph Lawrence School of Nursing in New London, Connecticut; a Bachelor of Science in Nursing from St. Joseph College in West Hartford, Connecticut; and a Master of Science in Nursing Education from the University of Alaska, Anchorage, Alaska.
