

Promotional: Medication Administration Pass

****You MUST print this for Continuing Education purposes and keep with your certificate of completion.**

Requirements:

For successful completion of this educational activity and receipt of 1.0 contact hour(s), the learner must:

1. Participate in 60 minutes of continuous learning.
2. Complete a quiz with a minimum score of 85%.
3. Complete an evaluation form.

Educational activity description:

It is the duty of any persons who administer medications as part of their job to make sure that the process follows industry standards. This educational activity explores best practices for ensuring a medication pass that incorporates safety, infection control, and rights principles.

Target audience:

The target audience for this educational activity is nurses, medication techs, and medication aides in the long-term care setting and other interested persons. This is an intermediate level educational activity. Information is geared to practitioners with a general working knowledge of current practice trends and literature related to the subject matter. The focus is on increasing understanding and competent application of the subject matter.

Learning outcome:

At the completion of the educational activity, the learner will demonstrate knowledge about avoiding medication administration errors during medication pass by passing a quiz with a score of 85% or greater accuracy.

Learning objectives:

At the completion of this educational activity, the learner will be able to:

1. Apply three (3) strategies to reduce medication errors.
2. Identify the five (5) rights of medication administration.
3. Select three (3) infection control practices during medication administration.
