

Promotional: Multidrug Resistant Organisms (MDROs)

****You MUST print this for Continuing Education purposes and keep with your certificate of completion.**

Requirements:

For successful completion of this educational activity and receipt of 1.0 contact hour(s), the learner must:

1. Participate in 60 minutes of continuous learning.
2. Complete a quiz with a minimum score of 85%.
3. Complete an evaluation form.

Educational activity description:

Persons who live in long-term care settings are at risk for developing a healthcare-associated infection (HAI). This educational activity reviews how an infection is spread and evidence-based strategies to prevent that spread.

Target audience:

The target audience for this educational activity is all staff in the long-term care setting. This is an intermediate level educational activity. Information is geared to practitioners with a general working knowledge of current practice trends and literature related to the subject matter. The focus is on increasing understanding and competent application of the subject matter.

Learning outcome:

At the completion of this educational activity, the learner will be able to demonstrate knowledge about multidrug resistant organisms by passing a quiz with 85% or greater accuracy.

Learning objectives:

At the completion of this educational activity, the learner will be able to:

1. Identify four (4) common multidrug resistant organisms (MDROs).
2. Identify three (3) risk factors for residents of long-term care facilities (LTCFs) that may contribute to the development of infection from a multi-drug resistant organism (MDRO).
3. State three (3) infection control precautions used by long-term care staff when caring for a person with a multi-drug resistant organism (MDRO) infection.

Author:

Lois Platt, MSN, RN

Ms. Platt has had extensive experience in a variety of health care settings, including as Staff Development Coordinator in a Long-Term Care facility. She also worked as a Term Assistant Professor of Nursing for the University of Alaska Anchorage AAS Nursing Program for many years as well as coordinating and teaching a Certified Nursing Assistant Program. Prior to entering nursing education, Ms. Platt worked in both staff nurse and Clinical Resource Manager positions in a small Critical Access Hospital in rural Alaska. Her work experience also includes staff and charge nurse positions on Medical-Surgical and Intensive Care Units. Ms. Platt obtained a Diploma in nursing from Joseph Lawrence School of Nursing in New London, Connecticut; a Bachelor of Science in Nursing from St. Joseph College in West Hartford, Connecticut; and a Master of Science in Nursing Education from the University of Alaska, Anchorage, Alaska.
