

Thank you for migrating or scheduling your migration to Healthcare Academy's enhanced Learning Management System (LMS)! As you prepare for the year ahead, we want to make sure your team is set up for success in **2026 planning and compliance**.

We invite you to join our **optional LIVE Course Assignment training sessions** led by Candie Naves, Project and Training Manager, and Jessica Burkybile, Director of Continuing Education and Clinical Account Experience Specialist. They will review the course assignment grid feature and review best practices for improved compliance in 2026 and host a Q & A.

We're offering two upcoming sessions:

**Course Assignment Review:** [Thursday, October 16, 11am-12pm CST](#)

**Course Assignment Q & A:** [Thursday, November 6, 11am-12pm CST](#)

If you're unable to attend live, both sessions will be recorded and made available for viewing.

**Please note:**

- Watch your email for instructions from [courseassignments@healthcareacademy.com](mailto:courseassignments@healthcareacademy.com) that will have steps on how to submit your course assignment requests.
- Effective November 25, 2025, the current LMS login page will redirect to the new LMS at [learn.healthcareacademy.com](https://learn.healthcareacademy.com). The old LMS will no longer be accessible after this date.

Thank you again for completing or scheduling your migration—we look forward to seeing you at the upcoming course assignment sessions!

Please [contact us](#) with any questions.
